## About the Course

---

Aptitude Test plays an important role in every interview process of hiring a candidate. Organizations usually conduct Aptitude Test to determine the level of Intelligent Quotient and the level of understanding the candidate possess. Its importance also lies in testing the Candidate's Skills, Basic Knowledge, Personality, Critical Thinking ability, English Language Skills, General Mathematical IQ and as well as the potential to predict the candidate's performance at different tasks and situations This Course will be beneficial for students in understanding what Aptitude tests are actually meant by? How to crack them during Interview Process? Thus, enhancing their chances at the passing the level of Aptitude Tests during Interview Process.

### **Problem Statement (Why Do we Need It?)**

- The Rate of Unemployment that has been present in the Pharma Sector is mostly due to candidates failing to surpass the basic Aptitude Tests.
- Do you know that, Most Candidates feel that Cracking the Technical Round and Professional Round of Interview makes them eligible to get the Job, but that is not the case, Candidates must first crack level 1 of Aptitude Test in order to move to upper level of Technical and Professional round of interview.
- Most Candidates when they appear for the interview process and well-versed and well-prepared to face the Technical Questions but, they often deem the Aptitude Test Round as not so important and thus fail in it
- It is mostly known fact that Aptitude Tests Round is most important for the Recruiters as it determines the level of Understanding the candidates possess & the Intelligence about the unknown, unfaced situations that candidates respond to but, unfortunately 80% of Pharma Candidates do not possess the aptitude level in them.
- The biggest highlighting point is that Academics and Institutes give you all-around knowledge of Technical Domains but, do not instill the vital skills of Aptitude Tests, this is the mist

### **Outcome:**

- By attending this course, the Candidates will be able to face the Aptitude Round confidently in the interview process.
- Basic Skills related to Mathematical Reasoning; Grammar will bolster the candidates 'chances to crack the Aptitude Tests.
- Candidate can learn basic skills and will be able to face the questions that entails them to showcase their knowledge related to unknown situation of problem solving & critical thinking.

# What Industry Experts have their say on Aptitude Tests?

Industry Mentors Speaks:

***“When the candidates appear for the Interview for the Corporate Job in Pharma Sector, he/she needs to be ready to face Aptitude Tests, unless he/she cracks it, they will not be able to go for 1 to1 Personal Interview of Technical Round”***

***“Aptitude tests are compulsory part of Pharmacovigilance Interview Processes. Candidates must have the knowledge of Logical Reasoning, Grammatical Skills of English Knowledge as well as the ability to face Critical Thinking for difficult Situations”***
